

The Lagos Military Resort is located in one of the prime areas of the city, where their green spot, the result of a concern to preserve and expand its entire wooded area, is the "lung" of the city. The Mil Resort works all year round, because their wooded and asphalt roads allow excellent conditions to all residents regardless of weather conditions. It should be noted that you can always choose to use all traditionally more targeted services for residents such as the barbecue area, mini market and cafeteria, or use the self-service, restaurant, laundry etc.
